PERSONAL PROJECTS

CRUD Application

- Developed CRUD applications using PHP and Python to create, read, update, and delete data from databases. Implemented user-friendly interfaces and integrated with databases for efficient data management
- Implemented back-end functionality for data manipulation using PHP and Python.
- Created database schemas and performed CRUD operations using SQL.

CRUD using MERN

- Developed full-stack CRUD applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) to create, read, update, and delete data from databases. Implemented RESTful APIs and utilized modern front-end frameworks for seamless user experiences.

Cinema Ticket Booking system

- Developed a web-based Cinema Ticket Booking System using JSP, allowing users to browse movie listings, select seats, and book tickets online.
- Technologies: JSP, HTML, CSS, Java, MySQL.
